

**Maastricht Business Days Spring
the 3rd and 4th of March 2021**

**Tomorrow starts today -
Take the next step**

Dear MBD participant,

on behalf of the Maastricht Business Days Spring Committee, it is my honor to welcome you to the 28th edition of the MBDs. The MBDs are the biggest recruitment event in the South of the Netherlands and we are happy to continue its legacy even in these uncertain times. When we signed up to organize the MBDs, we could barely imagine hosting this event online. Nonetheless, we are proud to collaborate with 36 companies today offering networking activities such as workshops, Q&A sessions, student chats, evening activities, and a company fair. The MBDs are a platform for businesses and students to get to know each other and Hopin provides the perfect online environment for this event.

Firstly, I would like to thank all business partners who remained loyal, returned, or discovered the MBDs. I am glad to welcome you today. This year's diversified company portfolio ensures that the uniqueness of this event remains intact. I hope we can exceed your expectations regarding this event and are looking forward to meeting you digitally. Secondly, I would like to welcome all students who signed up for the MBDs. This event is an outstanding opportunity to initiate your individual career paths. Use the many opportunities provided these two days and get to know companies from different fields and countries. Thirdly, I would like to thank everyone who contributed to realizing this important event. The MBDs would not take place without committed students - willing to go the extra mile - organizing them. Although we had many setbacks due to Covid-19 and the changing regulations, we managed to tackle the challenges and realize this event together as a team. This event could not happen without the devoted committee behind it: Caroline Hörmann, Luca Brablec, Eline Huijink, Lotta Zahn, and Luisa von Platen. Thank you for all your work and for not losing track of our goal. I would also like to thank SCOPE for their help, especially Emilie Nicolet – SCOPE's career commissioner –who always supported us through the planning of this event. I appreciate everything all of you put into ensuring that every SBE student has the opportunity to take next step. I am proud to present the result: the Maastricht Business Days Spring Edition 2021.

Finally, I encourage everyone to make use of all the networking activities today that you did not register for: the networking session from 11:15 am to 11:45 am and the company fair from 11:45 am to 12:45 pm. **Tomorrow starts today:** use these two days to network and create possibilities for your tomorrow.

Please do not hesitate to contact any of the committee members or business partners for remaining questions.

All the best,
Svenja Nitschke

Svenja Nitschke
Chairman Maastricht Business Days 2021

Dear MBD participant,

It is my honor to welcome you to the Maastricht Business Days Spring Edition 2021, the biggest recruitment event of the School of Business and Economics, which is exclusively organized by students for students.

Our students enjoy an education which encourages them to think critically, solve real-life business problems, and thereby engage in active learning. The MBDs offer a platform to connect students to the corporate world in order to extend their network and lay the foundation for their individual career paths.

First of all, I would like to thank all participating business partners who provide our students with an exclusive inside in their company culture. Especially in these uncertain times, we appreciate your interest in recruiting our ambitious students and your willingness to share your knowledge and expertise.

Furthermore, I would like to thank and congratulate the organizing board and committee for setting up this successful and important event that satisfies the expectations of all parties involved. The MBDs would not take place without your effort and I appreciate your hard work to make this event possible.

Lastly, I wish all attending SBE students an interesting and value-adding event. Companies from all kind of fields are participating – use these two days to get to know them! Enjoy two days full of networking activities and opportunities and be open-minded to start your future career. Tomorrow starts today: Take your next step at the Maastricht Business Days 2021.

Yours sincerely,

Prof. dr. H. P. Møllgaard
Dean of SBE

History of the Maastricht Business Days

In 1996, the Maastricht Business Days were initiated and have since grown into an annual two-day recruitment event. With the 28th edition taking place in March 2021, the MBDs are known as the largest and most prestigious recruitment event in Maastricht organised by and for students of the Maastricht University School of Business and Economics (SBE). The recruitment event provides a unique opportunity for both students and companies to get to know each other in an international and professional setting. Various program options such as workshops, student chats, and a company fair enable both sides to discover mutual opportunities. In previous years the MBDs were organised for 45 participating companies and more than 600 students.

This year's spring edition is the second online edition. Due to the current pandemic we had to adapt to the fast-changing circumstances. Nevertheless, we aim to provide a MBD edition that combines the success of the previous physical events and the former online one.

The MBD Committee 2021 is proud to host this year's event and give you the opportunity to [take your next step!](#)

My aim for this event is to ensure that students can meet many representatives of companies from different industries to expand their network. And that all firms get to know many motivated students who are curious about their business.

[Svenja Nitschke](#)
Chairman & Treasurer

My aim is to create an intensive exchange between the students and the companies in order to create an unforgettable event despite the current situation.

[Luca Brablec](#)
External Relations Commissioner Germany & Luxembourg

My aim for this event is to bridge the gap between higher education and the business world.

[Eline Huijink](#)
External Relations Commissioner International

My goal is that the MBDs serve as a foundation for a long-term network between our students and companies.

[Luisa Von Platen](#)
Operations Commissioner

I am highly driven to ensure an event that runs smoothly and boosts everyone's tomorrow. By efficiently combining the expectations of both companies and students, our operations team aims to create a fueling experience for all.

[Lotta Zahn](#)
Operations Commissioner

My aim is to connect students and companies through different channels which enables them to make remarkable experiences together.

[Caroline Hörmann](#)
Marketing Commissioner

Networking

Networking is a new activity specially designed for online MBDs. During the 30 minutes of networking, each participant will be randomly placed on a call with a company or another student for a few minutes, just like speed dating. Through this process, you can get to know many different people/companies in a short time and set a start for the personal conversation at the CompanyFair. Here you have a chance, even if you do not get a student chat at your desired company, to have a private chat with them. Networking will take place **before the company fair at 11:15 am until 11:45 am. We highly recommend to attend the networking activity.**

CV Checks

Prepare your CV for your future and get helpful advice from our professional recruiters.

Dutch and English CV Check

German and English CV Check

VON BUDDENBROCK
UNTERNEHMENSGRUPPE

You can meet both companies at the Company Fair and during the networking activity. For De Carrièrebus you had the opportunity to apply for their CV check. You can join Von Buddenbrock at their booth from 10 am to 3 pm, and he will check your CV and provide you with valuable advice.

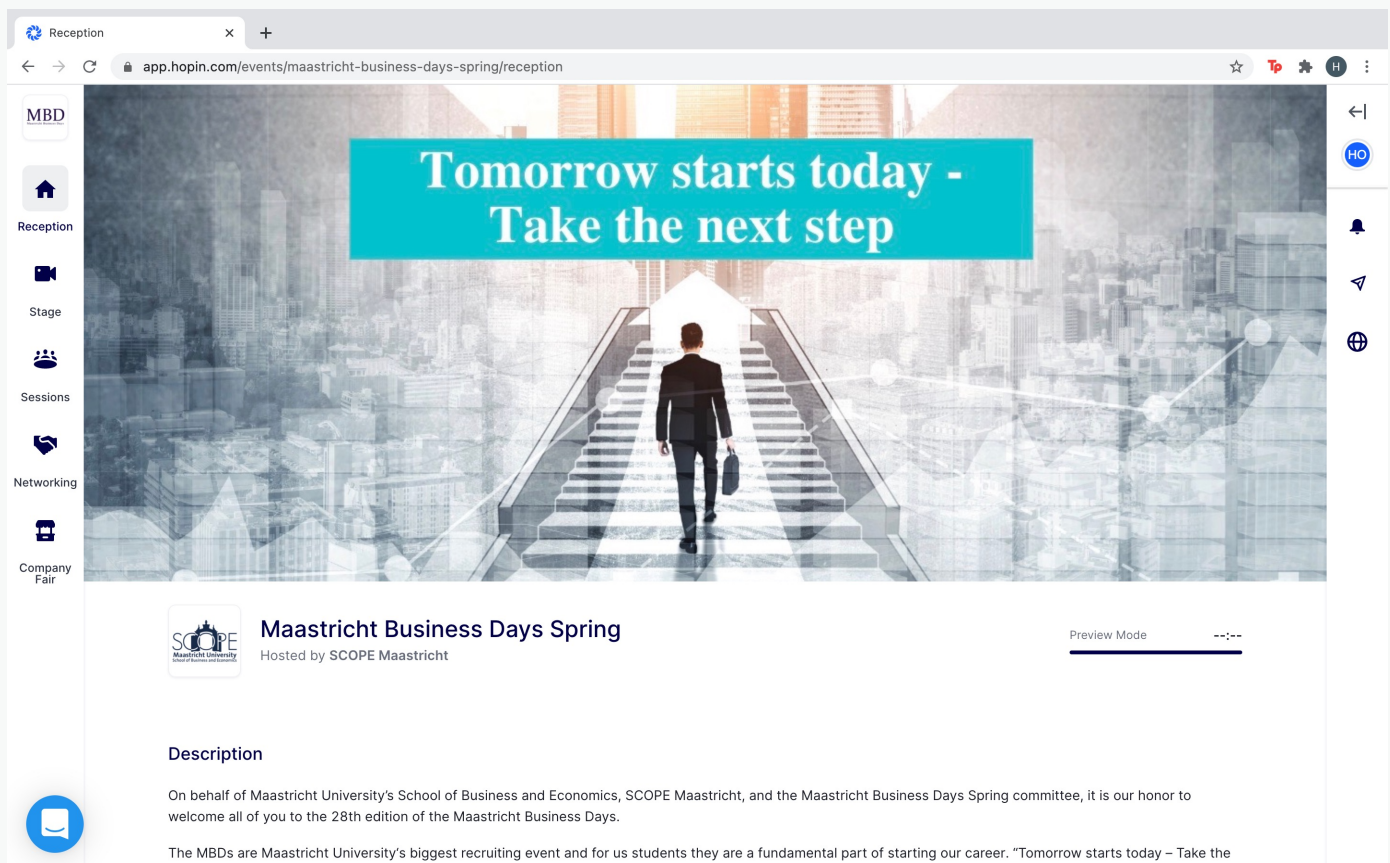

Our platform Hopin

What is Hopin?

Hopin is an online events platform that we chose to host this year's Maastricht Business Days Spring edition on. We created an engaging virtual event that allows us to have multiple interesting features. Hopin provides a safe, sustainable, and accessible way for us to host the MBDs and we are looking forward to seeing you there!

Good to know

1. You have to **create a Hopin account** with the link you received in the mail
2. Add your name and a profile picture
3. Log in 5 minutes before the event starts
4. Use **Google Chrome** as a browser

General Information

Activate and create your Hopin account

Add your name and a profile picture

Attendance

If you have been assigned to an activity make sure to be present **5 minutes** before it starts. Your attendance will be checked and the blacklist policy of SCOPE applies.

Company presentations, the Company Fair and Networking are accessible for everyone and we highly recommend joining them, but it is not mandatory.

Be active

The recruiters are online to meet and get to know you. Similar to offline events, do not be afraid to actively reach out to them and ask anything you want to know about their company, recruitment procedures, vacancies, company culture, or anything else you are eager to find out.

General/ Basic Rules

Remember that you represent the student of the SBE. We ask you to act accordingly and follow basic workshop rules. Mute yourself while you are not talking, do not interrupt recruiters as well as fellow students, and present yourself in a professional manner. A business formal dresscode applies.

Mobile Devices

Please dedicate your full attention to your assigned activities. Do not surf online or use your cellphone during activities.

We are here to help

In case you have any problems and issues you can contact us on our zoom hotline or you can send an email to info@maastrichtbusinessdays.nl.

Why choose us?

Your career at Accuracy

Are you searching for real training, with strong technical content?

At Accuracy, expertise is at the heart of our service offering. The diversity and frequency of assignments enables you to progress rapidly in a number of technical fields, such as financial analysis, economic and business analysis as well as valuation.

Are you looking to work in a highly reputable firm with a strong entrepreneurial spirit?

Accuracy operates in a number of high-risk situations, at the heart of current economic affairs. Conscious of the issues at stake for our clients, our partners and consultants effectively act as entrepreneurs to find bespoke solutions.

Are you looking for a career path you can control?

Accuracy takes into account the profile, aspirations and motivations of each of our consultants. The absence of barriers among the different fields of expertise, the ease with which it is possible to work in our different offices, as well as the international nature of our assignments, enable tailored, unique and fulfilling career paths.

Do you also wish for a fresh perspective?

Accuracy is a stimulating place to be, largely due to our unconventional way of thinking, balanced work schedules, informative seminars, open communication and clear company vision. Let's not forget that Accuracy is a current holder of the "Great Place to Work®" award. Discover a fresh perspective, in an environment accustomed to encouraging both professional and personal accomplishments.

"I appreciate the variety of projects we work on at Accuracy: one week we could be preparing a business plan for a real estate project in Milan, and the next, working on a due diligence for a luxury perfumer in Paris."

Katarina

Better together

Hello, we are ACT...

We're not your typical company. We shook up the world of commodity trading when we entered the market in 2009, and now we want to shake up your career with an offer you can't refuse:

A tailored Graduate Program and the chance to become a successful Sales Trader. All you need to offer is your talent, ambition and the right amount of flair. If you don't possess these qualities, don't worry, you can stop reading now...

No really, we mean it. You can stop reading...

Okay, so you're still here. That means you're not easily scared. Good! Because that's one of the most important qualities you'll need to become a successful Sales Trader.

As a Sales Trader you'll operate in the world's most dynamic and vibrant trading and commodity markets. You'll have the freedom to be an entrepreneur, create a client portfolio, build relationships, identify and source suitable products, negotiate terms and, the best part, close the deals.

As an ACT Commodities Sales Trader, you get to do it all!

But don't worry, you won't be on your own. In our personally tailored traineeship, we'll give you all the knowledge and support you need to develop your skills.

Becoming a successful trader starts with recognizing a good deal. And that's exactly what we're offering you. This is your chance to catapult your career as a Sales Trader and build a successful trading business together with us.

Still not scared? That's great!

Established in 2009 to facilitate the new trading opportunities arising from the EU ETS, ACT helps businesses worldwide reduce their carbon footprints quickly and cost-effectively through buying and selling environmental commodities for compliance and voluntary purposes. Demand for this service had led the business to grow rapidly in terms of clients, turnover and product range, with offices now located in Amsterdam, New York and Shanghai. As the global leader in trading environmental commodities, ACT offers unrivalled choice, service and reliability, offering a diverse international portfolio of certificates and physical energy commodities products. ACT trades certificates for carbon emissions, renewable energy and energy efficiency, as well as physical biodiesel, feedstock, oleochemicals and oils and petroleum products. Access to a broad suite of environment-related commodities enables companies to satisfy compliance requirements and meet voluntary sustainability goals. Sustainable solutions and renewable energy sources play a vital role in corporate responsibility. For many organizations, a well-defined corporate sustainability strategy has become essential to remain competitive. Recognising this, ACT works closely with teams to define the best strategy and creates customized solutions to meet environmental goals for each unique situation.

Launch Your Career

The Associate Programme at AlphaSights

As an Associate on our Client Service Team, you'll act as the connection point between our clients and industry experts. Your role is to focus on clients' knowledge gaps and identify experts with the knowledge that can address them.

This is a **fast-paced, client-facing role** with a clear focus on effectiveness and revenue generation. With exposure to a variety of industries, you'll develop commercial and business acumen, as well as the following transferable skills:

- Negotiation
- Professional communication
- Project management
- Client service
- Conflict resolution
- Training colleagues

An Accelerated Career Path

With significant autonomy and responsibility from day one, Associates embark on a merit-based, accelerated career path. Our alumni go on to join some of the world's most prestigious companies or pursue further study at top graduate schools.

AlphaSights

AlphaSights is a global professional services firm and a leader in knowledge search. We connect our clients, who are decision-makers in investment management, private equity, consultancies, and corporations, with industry experts that will help them make more informed and competitive business decisions. A good way to understand this in a real life example is thinking about when you visit a new city— would you rather Google the best place to eat, or ask a friend who has lived there for several years? The premise of our service is that human perspective, gained through lived experience, is more valuable than any codified knowledge you could find through the internet or other research.

Headquarter in:	London, United Kingdom
Other Locations in:	Hamburg, Dubai, New York, San Francisco, Hong Kong, Shanghai, Seoul, Tokyo

Our 325,000+ global customers rely on us to deliver accurate, real-time business and market-moving information that helps them make critical financial decisions. Bringing clarity to a complex world is our purpose. Ready to find yours? We are passionate about collaboration. We innovate in real-time. Our 5,000+ technologists rollout hundreds of products and enhancements every day, building tools that our customers need before they know they need them. We find answers to questions they didn't even know they should ask. At Bloomberg, we are guided by four core values that are the foundation of our continued success: innovation, collaboration, customer service and doing the right thing. Our company's groundbreaking impact reaches far beyond the finance and technology industries: we invest nearly all of our profits to help solve humanitarian issues globally and in our own communities. Our founder, Mike Bloomberg, is one of the world's top philanthropists, and through Bloomberg Philanthropies, we are committed to supporting worthy causes where the greatest good can be achieved.

De Carrièrebus helps students and young professionals who are in their job market orientation phase. For example, De Carrièrebus offers advice on masters programs and guides young professionals in the first or second step to the labor market. Experienced coaches offer free advice on issues like personal branding, job interviews, possible employers, branches, internships, graduate jobs or traineeships.

Do you need personal career advice or do you have a specific question? De Carrièrebus can help you independently with checking your CV, writing an application letter, preparing for your application and finding a suitable career opportunity and the employer that suits you best! In addition, De Carrièrebus advises on possible study opportunities and how to best profile yourself on the labour market.

Reaching our goals together.

You are a graduate at the start of your career, which means you have a definite goal. You want to develop and learn as much as you can, as quickly as you can. The best place to do that is with a bank that is also engaged in a process of growth.

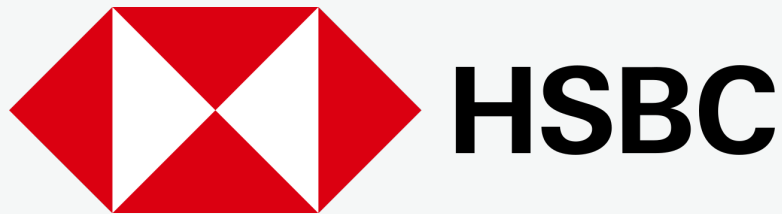

At HSBC Deutschland you will benefit from our ongoing dynamic development. You will be involved in exciting projects right from the start, enabling you to prove yourself and take on responsibility as part of an international network. And – of course – you will also be able to take advantage of our national and international professional development opportunities.

CHOCOLATE CREATES FRIENDSHIPS

There are many good reasons to work for Lindt. Most of them can be expressed in numbers, dates and facts - but one of the best reasons is actually the feeling that occurs when you become part of the Lindt family.

We call this feeling the Lindt Spirit and it includes passion, team spirit, diversity, respect, responsibility, openness and engagement.

Welcome!

Lindt & Sprüngli is recognized as a leader in the market for premium quality chocolate, offering a large selection of products in more than 120 countries around the world. As a globally operating company, we offer the combination of an informal working atmosphere and international career opportunities. In a dynamic environment you can bring in your expertise and ideas and look forward to excellent cooperations across all levels and departments. We are looking for motivated students and graduates who are fluent in German and interested in an internship, a traineeship or full-time position.

JOIN OUR TEAM

karriere.peek-cloppenburg.de

& SO MUCH MORE.

Peek & Cloppenburg

Peek&Cloppenburg

Teamwork at Peek & Cloppenburg: The Peek & Cloppenburg Group is more than “just” fashion. The optimized interaction of experts from different areas has been responsible for the company’s success for more than 110 years. The entire supply chain of the P&C Group covers the way from the production and the purchase of the goods up to the logistics, the goods presentation on the sales area and in the on-line shop and the consultation of the customers on site. Always supported by the expertise of the central divisions and individual subsidiaries, such as Mode Logistik and Fashion Digital. To become part of the P&C team, there are various entry and career opportunities. Working as an editor, IT specialist or architect for Peek & Cloppenburg? Many are surprised by the career opportunities offered by P&C. We are not only experts in fashion shopping, but also in making fashion. All of this succeeds because we live daily supposed contradictions: bringing personal best, but above all thinking of the team. Bringing great fashion to people, living the product, but also dealing with hard numbers and facts. Going innovative ways, but not forgetting the tried and tested ones. Anyone who unites these values every day is the right person for us.

Billions of consumers around the world are trusting P&G brands such as Gillette, Fairy, Oral B, Pampers, and Ariel to improve lives in small but meaningful ways. Since 1837 we are challenging the status quo, leading innovation, and shape the culture of the communities we touch. We make no compromises in the quality and marketing of our products. But it is the people who work at P&G who are our real success factor. Our employees have been the driving force behind our support for our environment, communities, and people a practice that has been ingrained in our culture for over a century. These are special people who create an atmosphere of mutual respect, readiness to help, and drive to success. Whether you join us as an intern or a full time employee, we hire and trust you to dive right in, lead, and to show initiative. From Day 1 you'll immerse in a leadership driven culture, and be given real responsibility that will increase over time, as well as first class training and coaching.

TRANSPARENCY

Our default is to share, leading to open debate, trust, and decisions based on data, not politics.

ALL IN

We bet on Qualtrics and Qualtrics bets on us. This is our company. We deliver whatever it takes.

CUSTOMER OBSESSED

If a customer is upset, we failed. Period. We learn, and we fix it.

ONE TEAM

There is only one team at Qualtrics. We win and lose together and never say, "That's not my job."

SCRAPPY

We're smart, resourceful, and find a way. We write our own story instead of following others.

Qualtrics, the leader in customer experience & creator of the Experience Management (XM) category, is changing the way organizations manage the four core experiences of business—customer, employee, product, & brand. Over 11,000 organizations globally use Qualtrics to listen, understand, & take action on experience data - the beliefs, emotions, & intentions that tell you why things are happening, & what to do about it.

In short: with our help, our client's data is correct, readily available and consistent and the information gets to the right recipient to provide meaningful insights.

Where?

+5 Locations

worldwide, with our customers.

Germany and Austria:

#Munich #Munich Academy #Düsseldorf
#Hamburg #Berlin #Graz (Austria)

Why?

We unlock potential, together.

Our team of experienced personalities represents corporate governance at a new level.

Our Benefits: www.verovis.com/karriere/benefits/

»we realize the full potential of man & machine in finance.«

Through optimization of organizational structures and integration of up-to-date technology we improve reporting processes of our clients. We deliver efficient processes and a high degree of automatisations in Corporate Performance Management and operative reporting. In short: with our help, our client's data is correct, readily available and consistent and the information gets to the right recipient to provide meaningful insights. verovis is the management consulting company specialized in selection, design and implementation of CPM/BI solutions and the continuous improvement of CPM-related processes, content, organization and tools. Founded by KPMG partners in 2015, verovis has since established itself as a trusted partner that delivers technology-driven, sustainable change. Our clients range from larger medium-sized business to DAX-corporations across various industries. Based in Munich and Düsseldorf, we pick up our clients at their requirements and objectives and develop them further to the completed solution.

vodafone

Vodafone is one of the leading telecoms and technology service providers in Germany. Vodafone is connecting people, places and things around the globe to improve lives and create a better future. A focus on sustainable business practices ensures that the technology building tomorrow's digital world does not come at the cost of our planet. Vodafone uses electricity from renewable sources, is switching to an electric vehicle fleet, has a sustainable supply chain and re-purposes re-sells or recycles 100% of network waste. A diversity and inclusion agenda with a wide range of measures is at the heart of the Vodafone culture. It includes support for families, networks for women, fathers and members of the LGBT+ community, as well as diversity training programmes for managers. Vodafone is respectful of all individuals, regardless of nationality, disability, age, religious or sexual orientation, gender identity, belief or cultural background.

von Buddenbrock Gruppe
Ihr privates Finanzhaus

von Buddenbrock as career partner - The quality of your goals determines the quality of your future

Visit us and back up an individual, sponsored career coaching in Maastricht as well as our application bible for free. Contents include checklists of your dream job, discount codes application photos, salary reports, insider tips, self analysis and marketing, market analysis, behavior in the application process and much more.

von Buddenbrock as financial partner - you want no financial solutions off the shelf? Then we should talk!

Since its foundation, the private financial house has been 100% privately owned. This independence from other banks and insurance companies gives us an unbiased overview of all market-relevant financial, insurance and real estate solutions with the target group on academics.

Meet us at MBD 2021 !

Leading specialist for academics and upscale clients of the Buddenbrock Group

t.kentel@vonbuddenbrock.de

The quality of your application determines the quality of your career - trust the quality leader in career coaching and financial coaching for academics. For us, there is no whitewashing. We have found ways around the sho- als and absurdities of the industry. We believe that customer-oriented and highly specialized career coaching as well as real independent provi- sion and asset planning for academics can work. Since its inception, the private financial house has been 100% privately owned. This indepen- dence from other banks and insurances gives us an unbiased overview of all financial products and services that are relevant to the. This allows us to develop solutions that are tailored to our customers. Regardless of the interests of third parties. We can demonstrate our expertise with in- depth training, long-term experience and ongoing training. All con- sultants are not commercial agents but real independent consultants. We focus on a partnership relationship between the customer and consul- tant - and a trustful consultation at eye level, where we responsibly deal with risks and use at the same time benefits and opportunities. Our financial issues are: income protection, health protection, real estate investment, financing, asset management, private and corporate pension schemes and much more.

Partners

We also invited student associations and bodies of the university to the MBDs 2021. You have the opportunity to meet the Internship Office of the SBE, Integrand, AISEC and UniPartners at the Company Fair.

Maastricht University

School of Business and Economics

The School of Business and Economics (SBE) encourages Bachelor and Master's students to do internships within the Netherlands or around the globe. The SBE Internship Office is here to help students receive (extra) curricular credits for their internship and help them with administrative issues. Every academic year around 300 bachelor students and 150 master students, do an internship at big or small (inter)national companies, NGOs or startups. Here are the main internship options provided by SBE: Bachelor's students have the choice between a curricular and an extra-curricular internship. A curricular internship is worth 4 ECTS and can replace one of the skills courses from year 2 onwards. The extracurricular option is done in addition to your studies. It will be mentioned on your transcript and can be worth between 12 and 30 ECTS. Students who specialize in Emerging Markets must do an internship (instead of a semester abroad) in their third year in an emerging market.

Master's students can choose to do an extracurricular internship after receiving all curricular 60 ECTS, adding up to 30 ECTS to their diploma. However, if students do not want to extend their studies further, they can also opt for the Thesis-Internship Program. This program is designed to help students get their hands on data from a real company, which will help students to write their Master's thesis and add some work experience to their studies, all without delaying graduation. If you would like to have more information on these internship options, make sure to visit our pages on the Intranet. Start from the student portal, click on My Links and then on MySBE. For any further questions you might have, do not hesitate to get in touch via e-mail, zoom or phone. The SBE Internship Office team cannot wait to help you with all your internship questions!

FOR STUDENTS

Are you ready to make an impact? We may have the perfect internship opportunity for you! 🌍
Get in contact with AIESEC in Maastricht for more information:

https://auth.aiesec.org/users/sign_in

FOR COMPANIES

Grow your company by accessing our global youth network. Get in touch with our local office or visit our website for more information: <https://aiesec.nl/companies/>

AIESEC – Leaders for the World

AIESEC is the largest youth-led nonprofit organization globally that empowers youth around the world to develop their leadership potential in challenging environments abroad.

AIESEC was established in 1948 after World War II with the aim to facilitate greater cross-cultural understanding across nations. Since then, AIESEC has grown to become a global platform for young people to explore and develop their leadership potential. We are non-political, independent, not-for-profit and predominantly run by students and recent graduates. Globally, the AIESEC network extends to 35 thousand current members in 120+ countries. An even greater network of AIESEC alumni in all professional fields, including some of today's most celebrated leaders, illustrate the impact of our organization.

Since 1948, we have placed our confidence in youth to shape the world. AIESEC develops responsible and entrepreneurial leaders today who will choose how the world is led tomorrow. Leaders that are self-aware, solution oriented and empower others in their role as world citizen. We develop these qualities by providing life changing practical leadership experiences abroad to ambitious students such as professional internships and volunteering opportunities. Over the past decades, we have provided over 1,000,000 AIESEC experiences to young people.

How would you shape the world?

INTERVIEW WITH YOUR COMPANY

INTERNSHIP!

WHAT IS INTEGRAND?

Integrand was founded in 1980 and has since then developed into a nationwide student organization with an extensive product portfolio. As a non-profit organization, Integrand's mission is to bring students into contact with the business world. Through our extensive product portfolio of internships, academic jobs, inhouse days, business courses, board functions, and labour market information, we act as a bridge between the academic student and the business world. Our inspiration and drive come from the fact that during their academic studies, students hardly come in touch with the business world. We bridge this gap from both sides. We help students to prepare themselves for getting into contact with the business world and furthermore, we help companies find the right students for their internships.

INTERNSHIPS

Nationwide coverage: Due to the fact that we have 12 offices, located in each university city in the Netherlands, we have a large network of companies who are looking for an intern. So if you are looking for relevant working experience next to your studies, subscribe via our website and we will start searching for you!

TALENTPOOLS

For talented students, Integrand created Talentpools in the sectors Finance, Engineering, and Law.

TIPS AND ADVICE

Your career is unique, but every student has to apply for a job or internship. Via our website we offer many tips & tricks, and we are always available for personal advice.

TRAINING SESSIONS

Give your social and professional skills a boost! Check out our website and contact us to keep you informed about the upcoming training sessions!

CONTACT

Contact us if you have any questions or would like to know more via maasticht@integrand.nl, or take a look at our website www.integrand.nl/ for more information, updates, and tips!

Uni Partners

Academisch adviesbureau

The top consultants of tomorrow are at UniPartners Maastricht!

UniPartners is the non-profit organisation that lets companies benefit from the most up-to-date knowledge of top university students. We are part of a nationwide consultancy network run by ambitious students. Since 1987 we work very hard to provide organisations with academic advice for every challenge. Our database consists of thousands of top students.

So, for every complex issue we have a student to give you tailor-made advice. During the project UniPartners supervises the student-consultant to take away all your worries. In a meeting with the company we will come to a project description together. With this project we will look for the best student for you. This way, companies can be sure that their projects will be carried out with passion and expertise. When students have the opportunity to unleash their creative and fresh thinking, they will help build a better future for organisations.

Our office is affiliated with Maastricht University. Because of the wide variety of bachelors and masters, we can help organisations with any type of issue they may have. Our office has been active in the region's business community for several years now, and partly because of the support of a large national network, doing business with UniPartners is very familiar and we have enough knowledge of the market.

We help companies with the optimization of their organizations. From starting companies to experienced companies and from small to big. For every question they can contact UniPartners. UniPartners has the unique position to offer access to the latest academic knowledge in an accessible way. Besides that we already exist since 1987 and therefore have a lot of practical experience in executing projects.

Do you want to become a junior consultant at Unipartners, or are you a company looking for high quality academic advice? Don't hesitate to contact us!

SCOPE Maastricht

SCOPE Maastricht is the official study association of the School of Business and Economics. We are one of the largest study associations in Europe, counting approximately 3500 members. Our purpose is to bridge the gap between academia and praxis, being the strongest intermediary between the student population and potential future employers. Due to our extensive collaboration with a multitude of international enterprises, we are able to provide our students with a wide variety of career events, consequently establishing an exclusive recruitment platform to the benefit of all parties involved.

Word of Gratitude

Herewith, we would like to express our gratitude to all people who enabled and supported us to realize the Maastricht Business Days 2021.

Participating Students

Without your enthusiasm, interest and professionalism the event would not have been possible. Even in an online environment, students' interest and engagement was as high as in previous editions.

Our Business Partners

The opportunities the company representatives provided at the MBDs itself, and the established relationships in the pre-process are greatly appreciated.

MBD - Spring and MBD- Autumn Edition Committee 2020

For the great transition and support with all your experiences.

Emilie Nicolet

As the career activities commissioner of SCOPE Maastricht who assisted us extensively throughout the whole organizational process.

The Board of Scope Maastricht

For providing the organizational network and knowledge to make the MBDs possible.

All Stakeholders of the MBDs

Everyone who has been involved in making the MBDs 2021 a great success. Especially this year's edition brought challenges that were mastered exceptionally by the committee and innovative solutions found great acceptance among all involved parties.

MBD
